

Agenda

LOCAC Traffic and Circulation

Tuesday January 10, 5:30pm, SBCC Small Mtg Room

- Call to Order
- County Updates
- Discuss Circulation Study priorities - see 2016 plan at:
<http://www.slocounty.ca.gov/Assets/PW/Traffic/circulation+studies/RIF+Comm+Circulation+Stdy+Los+Osos+rsl+2016.pdf>
- LOVR Bike Lane discussion - see email below
- Future Agenda Items
- Adjourn

See you then, Jan

For LOVR Bike Lane discussion ---

RE: Request for Agenda time:

Hello Jan,

The BAC has requested I place the following discussion of a former bike lane on your earliest agenda to gain input and support from the Los Osos community:

As you know after the sewer mains were installed there were many paving projects in Los Osos. On LOVR at Pine St. Public Works used this opportunity to install a left turn lane for motorist onto Alexander St, in the process they removed the east bound bike lane in that area. This is an interruption of the class 2 bike lane that had existed on Los Osos Valley Road eastbound from Monarch Grove Elementary School to Broderson Avenue. I consider an interruption of a bike lane dangerous to students and other cyclist that use this route near the Elementary school.

I have presented my idea of a pavement re-striping project: using the former "Class 1" bike path in front of the Church; shifting the lanes to the north 4 feet. to SLO County Public Works, and the SLO County BAC.

However, there are other areas beyond the Church frontage that may require removal of parking,

(County Public Works is reluctant to remove parking and is appealing to have the "citizens lead" the return of the Class 2 Bike Lane.)

thanks for all of your hard work,
Josh Olejczak, SLO County BAC, Dist 2, Appointee.
