

LOS OSOS COMMUNITY ADVISORY COUNCIL

Trees & Landscape Committee September 10, 2018 Agenda

First order of business:

Los Osos resident, Tony Salome, will present a new tree planting proposal (see attached) for Los Osos. Tony has spent the last several months researching and talking to various experts in our community and around the county. He and I recently met with Commissioner Gibson to vet some of his ideas. After he presents we'll open the floor to questions and discussion.

2nd Order of Business:

Tony also provided a local plant list and native tree list (both are attached here). Cindy Roessler and I also have plant and tree lists for Los Osos. The committee has discussed publishing a new and revised pamphlet of recommended plants and trees for Los Osos. Tony has made education and awareness one of the central pillars of his proposal. We will discuss how we can make this information available to residents in our community, how to fund it, etc.
