

LOCAC Traffic & Circulation MINUTES
Monday Oct 19, 2020

- Called to Order
- Attendees - M.Britton/CoPubWorks, J.Kreps, M.Syfan, D.Bowlus, B.Boyd, L.Tornatzky/LOCAC, R.McPeak, T.Bartel/LOCAC, L.Denker, L.Bender/LOCAC, J.Quesenberry, J.Harper/LOCAC

Thank you each for your attendance and participation.

- LO Circulation Study. Mike presented the report to begin the discussion. This is a report out of the status of the Road Improvement Funds. These fees are for road improvements to keep circulation within Los Osos flowing smoothly. There were a number of questions, which were all answered and a good discussion. The group decided to receive and approve the report, and forward on to the LOCAC Board.

- There were additional comments about parking on 2nd Street, safety of the situation if diagonal parking in the middle of the street is used in the area. Suggestion was made to have a presentation to LOCAC Board by County staff on the 5yr Infrastructure Plan, regarding LO. For information and education of all. I will work with LOCAC and County to move this forward.

These are not detailed minutes, as I did not capture as much as usual due to managing the virtual mtg. Please let me know if there is anything major I have left out and I will update these minutes.

Thank you - Jan
