

Monday August 16, 5:30p
LOCAC Traffic and Circulation
Minutes

- Call to Order

- Attendees - J.Tacker, D.Bowlus, B.Boyd, Dianna, T.Bartel/LOCAC, J.Roberts/PublicWorks, D.Howe/LOCAC, L.Tortatzky/LOCAC, R.Naccarati/PublicWorks, J.DiNunzio/SLOCOG, L.Denker, M.Leal/Public-Works, J.Quesenberry. Thank you ALL for attending and your participation!

- Road Impact Fee Presentation. J.Roberts - See presentation attached. Joshua discussed thoroughly. Basic take away - these fees are for future new construction or major change in the use of a property. They are only used for projects identified by the County that will impact safe and efficient circulation within Los Osos due to growth (projects identified/listed in the study previously sent). Other improvement projects have to be identified by the community and seek funding. There were questions: about sidewalks - new construction will be responsible for them as project is built, along with ADA compliance as needed; a question on abandonments and quiet title actions was explained; why flat fee - treats all peak hour trips equally, categories based on the ITE Trip Generation Manual: question on map within presentation - Joshua will work with contractor to clarify issues raised and provide a clearer map. Group recommended approval to LOCAC at August mtg, with any changes Joshua gathered from meeting. County plans to attend the August meeting to answer any further questions - PLEASE go over study and presentation slides prior to meeting. Thank you

- Other Items - Question on coordination for pedestrian travel which is high priority within Los Osos - there is the Bicycle Advisory Committee, their plan is at www.slocoutny.ca.gov/Departments/Public-Works/Forms-Documents/Committees-Programs/Bicycle-Advisory-Committee/Plans-Documents/2016-Bikeways-Plan.aspx, SLOCOG - slocogatp.org - the county works with these and Parks and Recreation for trails, RTA for public transportation - It takes the community, often a champion/champion group to work on identifying needs and pushing forward projects; speed limit question - limits are based on a traffic survey - then based on the 85 percentile, can be set within 5mpg of that speed - ie if survey shows 32mph - speed limit can be set at 30mph, take away - drive speed limit or slower and advise others to do the same - many times a traffic study raises limits.

- Meeting Adjourned

Further Traffic and Circulation meetings will be held as County items are brought forward.

Here are numbers to report issues you notice around Los Osos:

- County Public Works/805.781.5252 -

for road condition issues, visibility/vegetation issues, signage needs.

- Sheriff Dept/LO Sub Station/805.528.6083 - for parking and other issues.

- CHP/805.594.8700-day, 805.593.3333-after hours - for speed, driving, traffic issues.
