

Candidate Statement
Molly Brown, District 4
Los Osos Community Advisory Council

I am currently serving on the Los Osos Community Advisory Council (LOCAC), as a co-chair on the Land Use Committee. I am running for a new term. I am a long term resident of Los Osos and care deeply about maintaining and enhancing our wonderful community. On the Land Use Committee we review development proposals in Los Osos for new construction, both residential and commercial. We evaluate projects to determine if they are a good fit for the community. Our project reviews include consideration of potential negative effects on neighbors or the community as a whole. If negative impacts are identified, we advocate for positive changes to be made. We are an advisory body, not actual voting decision-makers, so we provide input to the County Board of Supervisors, the County Planning Commission, County County Planning staff and County Fire/Cal Fire, which they do consider in their decision-making process.

I spent over twenty years as a Fire Inspector with the City of San Luis Obispo Fire Department, working primarily in commercial construction development review and inspections. I have worked on large and small projects, including collaborating with many local governmental agencies. I am committed to working for the betterment of our community. I would value your vote.
